

Dear Advertiser,

Today marks the beginning of a new era for the Webster Ridge Runners snowmobile club. After several months of planning and preparation, the club took delivery of their newest piece of equipment. The club purchased a Bombardier BR-160 snowmobile trail groomer. The machine is a full size trail groomer like those found in the Adirondacks, Old Forge and Canada.

The BR-160 boasts a 160 horsepower Perkins turbo-charged diesel engine and stands ten feet wide, 8,800 pounds and will be responsible for the clubs Eastern trails. The purchase was a strategic move on the clubs behalf, as the Webster Ridge Runners are increasing trail mileage to the South and East with intentions to meet neighboring clubs and interconnect the 150 miles of trails in Wayne County.

A groomer committee was formed to research the clubs options in the spring of 2009. After hundreds of phone calls, several road trips and hours of investigation, the decision was made to purchase the groomer from the Redfield Sno-Rec Club. The purchase of a machine like that found in Tug Hill is a milestone for the club, but does not come without a price tag. The machine was purchased without a drag and that is where we need your help!! **Help the club and become a part of history!! We need to raise \$10,000 to make this a successful season with flat and safe trails!**

Attached I have included the new pricing schedule and some photos of the three groomers showing all of our supporters logos. Please have all renewals in no later than October 31, 2009. All advertising will be removed from Website, Groomer and Trail Signage if we do not receive your renewal no later than the 31st. Please feel free to contact us with any questions, we look forward to our continued relationship.

Business Sponsorship Options

Track Truck Groomers
